Objective

To achieve a key position in professional organization world by learning and giving best of my learning to the organization which help the organization in achieving their goal with spirit of team work, sincerity & dedication.

Experience

- **Polar bear Inc. (Edubuddy)**   Nov-2024 - Now
  Assistant Engineer- Product development
  Developed and maintained web applications using C#, .NET Blazor framework to support EdTech platform functionalities.
  Performed internal product testing, identifying bugs and ensuring product stability before deployment.
  Provided technical support to customers, resolving software-related queries and ensuring customer satisfaction.
  Contributed to UI/UX improvements by integrating front-end features based on feedback and testing outcomes.
  Assisted in debugging and optimizing application performance across different modules.

- **Shuchit infotek**   Aug-2024 - Oct-2024
  Frontend devloper (Remote)
  Designed and developed responsive user interfaces using HTML5, CSS3, and JavaScript to ensure cross-browser and cross-device compatibility.
  Built and maintained dynamic web pages and forms using PHP, integrating front-end features with back-end logic.
  Collaborated closely with designers and backend developers to implement UI/UX improvements and deliver seamless user experiences.
  Implemented reusable components and modular code to improve development speed and maintainability.

- **K2 technologies**   February-2024 - March-2024
  SEO Executive trainee
  Executed comprehensive On-Page SEO strategies including keyword research, meta tag optimization, header structuring, and internal linking to improve page rankings.
  Managed Off-Page SEO activities such as backlink building, directory submissions, guest blogging, and social bookmarking to boost domain authority.
  Conducted Technical SEO audits to identify and fix crawl errors, broken links, XML sitemap issues, and mobile usability problems.
  Used tools like Google Search Console, Google Analytics, Ahrefs, SEMrush, and Screaming Frog to track performance and troubleshoot issues.
  Collaborated with content and development teams to align SEO strategies with content updates and website changes.
